MINISTER OF DEFENCE
INDIA

August 27, 2012

It is a pleasure to learn that Mahatma Gandhi University has been established at Meghalaya.

North-East region has always been and is an integral part of our nation. The establishment of this University at Meghalay will benefit the people of tribal areas of the state and the region by providing them high quality education.

Your endeavour must be to imbibe in the students virtues such as honesty, integrity and humaneness. Besides meeting the requirements of education of students from the region, I am sure that the University will grant admission to students from other parts of the nation. This will also afford the students an opportunity to have a first-hand experience of 'Unity in Diversity' of the nation.

I hope that the objectives enshrined in the Prospectus of the University will adequately reflect the ideas and ideals of Mahatma Gandhi in the field of education.

Please accept my best wishes for success in your endeavours.
With warm regards,

(A.K Antony)
